

Fachspezifischer Studierfähigkeitstest im Rahmen des Bewerbungsverfahrens zum M.A. „Genome Based Systems Biology“

To tell us about your motivation, qualifications and goals for this Master's Program, please elaborate on the following questions. We would like to ask you to write full sentences (no bullet points, please). As our Master is bilingual (English and German), you can submit your text in either language.

(Max. 750 words)

- 1)** How do your previous studies qualify you for the Master's program „Genome Based Systems Biology“? Briefly state the most relevant theoretical and practical (laboratory) skills you gained, both in scientific as well as in other environments. Please mention relevant work, internship, or volunteering experiences.

- 2)** Which techniques did you acquire or improve while working on your Bachelor's thesis? What are your main learning goals in the course of your „Genome Based Systems Biology“ studies? What research fields are of particular interest to you and what skills would you like to develop?

- 3)** Why did you decide to apply for this interdisciplinary Master's program at Bielefeld University? How will these studies support your future plans?

- 4)** Please feel free to add further information you would like the committee to consider.
